

Hatchie National Wildlife Refuge

Public Use Regulations 2014-2015

Hatchie National Wildlife Refuge is one of over 550 National Wildlife Refuges. The refuge was established to provide essential habitat for migratory birds. The U.S. Fish and Wildlife Service administers the Refuge System and is responsible for conserving, protecting, and enhancing the Nation's fish and wildlife populations and their habitats for the continuing benefit of people.

The provisions listed below supplement the general regulations which govern public use on a National Wildlife Refuge as set forth in Title 50, Code of Federal Regulations. When permitted, hunting, fishing and other public uses will be in accordance with applicable State laws unless otherwise listed.

General Provisions and Access Regulations

By law, National Wildlife Refuges are closed to all recreational activities unless expressly permitted. Hunting, fishing, and certain other recreational uses are permitted on most areas of the refuge. The refuge is a Day Use Area Only. The refuge is closed from legal sunset to legal sunrise with the exception of legal hunting activities.

We allow hunters to access the refuge no more than two hours before legal sunrise to no more than two hours after legal sunset, with the exception of raccoon

The use or possession of alcoholic beverages is prohibited while on refuge lands and waters.

Closed Areas

Designated areas are closed to hunting, fishing, and all public access during fall and winter months to provide resource protection (see map for specific locations and dates of closures).
